

Bookkeeping Case Study

£90 plus VAT per place
No charge for members

WHO SHOULD ATTEND

The course is relevant for anyone who is new to accounting and wishes to understand how manual bookkeeping and accounts preparation works in practice.

It builds on the theory covered in Principles of Bookkeeping and Bookkeeping: The Next Stage and is ideally combined with these courses, although it also serves as an excellent stand-alone unit for those who have grasped the principles but would appreciate a more practical demonstration of the techniques involved.

Balancing Off

OBJECTIVES

By the end of the course participants will have had practical exposure to control accounts and trial balances by completing two months of postings for a fictional client, “Wanda of Whetstone”.

CONTENT

Participants will gain experience of manual bookkeeping through:

- posting from daybooks into sales and purchase ledger control accounts;
- reconciling control accounts with sales and purchase ledger balances;
- posting remaining daybooks into the nominal ledger; and
- balancing-off accounts and extracting a preliminary trial balance.

As well as exposure to manual bookkeeping, participants will also be shown how ledgers and trial balances appear when accounts preparation packages such as Sage are used.

CPD HOURS: 3

ETB, Journals and Final Accounts

OBJECTIVES

By the end of the course participants will have had practical exposure to daybooks by completing an extended trial balance for a fictional client, “Wanda of Whetstone”.

CONTENT

Participants will gain experience of manual bookkeeping through:

- preparing journals for period-end adjustments;
- calculating accruals and prepayments;
- extending a trial balance; and
- drafting a trading and profit and loss account and balance sheet.

As well as exposure to manual bookkeeping, participants will also be shown how journals and final accounts appear when accounts preparation packages such as Sage are used.

CPD HOURS: 3
